Class Fee: \$40/Student

The Madison Sail and Power Squadron have been serving area boaters as the premier source for public boating education in Dane County since 1960. Club members are dedicated to promoting safe recreational boating and environmental responsibility for all Madison and surrounding community boaters.

Madison Sail and Power Squadron members represent a broad cross section of boating interests that includes paddling, sail and power. Instructors are certified by the Department of Natural Resources (DNR) to conduct boating and personal watercraft safety courses. Introductory classes are suitable for most ages and skill level beginning as early as age 12. We prepare new boaters for a safe experience on the water, and we make experienced boaters even better.

All classes are led by certified boating safety instructors with advanced boating education credentials and years of experience on the water. Students that successfully complete the “America’s Boating Course” written exam will earn a DNR safe boating certificate. Students under the age of 16 be accompanied by a parent or guardian to insure successful completion of the class.

Course completion certificates normally qualify adult boat owner discounts through their respective insurance companies.
